ADD ECLIPSE BLINDS TO YOUR DOOR
THE ULTIMATE IN PRIVACY, ELEGANCE AND CONVENIENCE

Control your privacy level with the touch of a finger. Internal blinds (blinds in between the panes of glass) give you a choice between a full clear view and total opacity. Raise, lower, open and close your blinds and never have to clean them.

BELLE-VUE
LIFT AND SLIDE

Available with Prima and Prestige

The ideal door for those who think big!

With a Belle-vue lift and slide door, you can transform your home by opening it up to the beauty of the outdoors with a giant "glass wall".

When the lever handle is turned up, the door locks into place and compresses all the weather seals to prevent air and water infiltration. Turn the lever handle down and the door lifts above the weather-strip, which lowers friction and makes it very easy to slide.

You will enjoy your Belle-vue lift and slide door for many years and can rest assured knowing that it's backed by our comprehensive guarantee.
